Frontline Human Expertise

Innovative Technology

600+ Cyber threat investigations*

300+ Red team engagements*

60K+ Hours of red team engagements*

1 million+ Unique malware samples per day*

150+ Malware traffic decryption/decoding scripts*

100+ Attack vectors decided

In 2017, FireEye was credited with discovering 32 of the 58 newsworthy zero-day attacks.

PROTECT

Threat groups

We map and continue to track nearly 600 million interconnections between threats, the actors and sponsors behind them, and their tactics, techniques and procedures. This deepens has enabled us to break thousands of threats at all levels, including real-time full-scale nation-state sponsored groups. In 2017 alone, we identified four new advanced persistent threat (APT) groups.

APT32

APT33

APT34

APT35

32/58 Zero-day attacks

In 2017 FireEye was credited with discovering 32 of the 58 newsworthy zero-day attacks.

Defend. Innovate. Protect.
