

Incident Response Retainer

Reduce incident response time and minimize the impact of a security incident

BENEFITS

- World-renowned Mandiant experts on your side
- Access to Mandiant's industry-leading technology stack
- Pre-negotiated terms and conditions that reduce response time when it matters most
- Discounted rate for Incident Response Services
- Guaranteed response times in the event of a suspected incident
- Flexibility in using Mandiant's consulting services, including Incident Response services as well as technical and strategic services

Why FireEye Mandiant

FireEye Mandiant has been at the forefront of cyber security and cyber threat intelligence since 2004. Our incident responders have been on the frontlines of the most complex breaches worldwide. We have a deep understanding of both existing and emerging threat actors, as well as their rapidly changing tools, tactics and procedures (TTPs).

Overview

The FireEye Mandiant Incident Response Retainer (IRR) allows you to establish terms and conditions for incident response services before a cyber security incident is suspected. With an IR retainer in place, you have a trusted partner on standby. This proactive approach can significantly reduce response time, thereby reducing the impact of a breach.

The IRR gives you flexibility to structure the retainer your organization needs.

- **No-cost retainer:** Establishes terms and conditions between your organization and Mandiant for incident response services. The contract defines hourly rates for related services and technology fees. There is no financial commitment or annual cost. Charges are only incurred on a time and materials basis upon declaration of an incident.
- **Prepaid hours:** Purchase pre-paid block of incident response hours at a discounted hourly rate, with the flexibility to repurpose unused hours. The pre-paid hours can be used on a wide range of technical and strategic consulting services.¹

¹ Hours must be repurposed within the contract term.

- **Service Level Agreement (SLA):** In addition to pre-established terms and conditions, add an SLA to gain peace of mind from guaranteed response times.
- **Incident Response Preparedness Service (IRPS):**
The IRPS is designed to assess and improve your current incident response readiness to support an investigation, if necessary. This ensures you have the right level of logging and log retention in place to preserve evidence and allows our forensic analysts to better understand your unique environment and establish proper visibility of your critical assets.

Initial response	Service-level agreement	Incident Response Preparedness Service
<ul style="list-style-type: none"> • Triage security issue • Provide initial assessment based on FireEye intelligence and Mandiant experience • Live response analysis of the systems to identify malicious activity 	<ul style="list-style-type: none"> • Access to a 24/7 incident response hotline • Initial contact (via email or phone) within eight hours: The first contact is with a Mandiant incident responder who can immediately help with triaging the incident • Mandiant first-responder assigned to your case within twenty-four hours² 	<ul style="list-style-type: none"> • Review of existing monitoring, logging and detection technologies • Ensure ability to quickly contain an incident • Review of current network and host architecture • Evaluation of first response capabilities • Collaborative planning for typical response scenarios • Recommendations for areas of improvement

Available consulting services for repurposing prepaid hours include:

Technical Services	Strategic Services	Education Services
<ul style="list-style-type: none"> • Compromise Assessment • Red Team Assessments • Penetration Testing 	<ul style="list-style-type: none"> • Response Readiness Assessment • Security Program Assessment • Incident Response Tabletop Exercise • Cyber Defense Center Development 	<ul style="list-style-type: none"> • Incident Response and Forensics • Malware Analysis • Cyber Security and Intelligence

² Upon declaration acceptance.
