Every day, security teams are inundated with an average of 10,000 alerts per day—far more than they have resources to address. Even with powerful tools that detect advanced attacks and help manage response, organizations often lack the needed experience to prioritize events that matter.

Security teams can enhance their technology with the support of experts who routinely respond to and protect against motivated adversaries. Mandiant Managed Defense is a managed detection and response (MDR) service that protects and defends with frontline experts and nation-grade threat intelligence.

**Protect and Defend with Mandiant Experts**

Experienced defenders from Managed Defense are constantly fueled by Mandiant’s global cyber threat intelligence and incident response experiences gained on the frontlines of the world’s most consequential cyber attacks. This combination of knowledge and experience drives more effective monitoring and detection. Our experts hunt across endpoints, network, email, cloud and logs providing comprehensive visibility of your environment. They surface the most impactful events and use proven response tactics so you can take swift, decisive action.

  Track alerts, investigations and hunt missions in real time via Managed Defense portal.
Managed Defense offers around-the-clock monitoring and alert prioritization working with FireEye technology and a growing range of third-party technologies. Mandiant experts swiftly scope, investigate and prioritize alerts with context from nation-grade threat intelligence.

Fueled by up-to-the-minute threat intelligence, the Managed Defense threat hunting team designs and conducts hunt missions to reveal the stealthiest threat actors. Mandiant threat hunting combines powerful data analytics, automation and elite experts with intuition and frontline experience. You can follow our hunters as their work unfolds in the Managed Defense portal. Each mission is mapped to the MITRE ATT&CK® framework and includes related intelligence so you can take decisive action throughout your environment.

You are notified immediately when evidence of compromise has led to an investigation. Managed Defense partners with your team to contain compromised assets and quickly scope and investigate incidents. Together we form actionable remediation recommendations for an effective response.
